

London College of Clinical Hypnosis

Bridging Requirements

We are now offering bridging by attending tutorials with a lecturer or qualified tutor.

Bridging allows people holding LCCH qualifications obtained prior to our partnership with TVU, or those qualifications from other *bona fide* hypnotherapy training organizations to enter into the LCCH/TVU suite of programmes. The level of bridging required will be determined by the pre-existing qualifications held by a student:

- *If you hold the LCCH Certificate qualification only:* you will need to sit the CPPD Clinical Hypnosis bridging in order to gain entry to the Postgraduate Certificate in Clinical Hypnotherapy (PgCert).
- *If you hold the LCCH Certificate + Diploma qualifications only, or if you hold the LCCH Medical Diploma only:* you will need to sit the PgCert bridging in order to gain entry to the Postgraduate Diploma in Clinical Hypnotherapy (PgDip).
- *If you hold the LCCH Certificate + Diploma + Practitioner qualification:* you will need to sit the PgCert bridging and the bridging for the Practitioner Diploma in order to gain entry to the CPPD Cognitive Behaviour Hypnotherapy (CBH).
- *If you hold the LCCH Certificate + Diploma + CBH qualification:* you will need to sit the PgCert bridging and the bridging for the CBH in order to gain entry to the CPPD Practitioner Studies.
- *If you hold the LCCH Certificate + Diploma + CBH + Practitioner qualification:* you will need to sit the PgCert bridging, the bridging for the CBH and the bridging for the Practitioner in order to gain entry to the Masters programme.
- *If you hold a qualification from another bona fide hypnotherapy training organization:* Currently the only entry point available is the PgCert, therefore you will need to sit the CPPD Clinical Hypnosis bridging.

Bridging details

Bridging consists of attending the minimum number of tutorials as laid on the next page for each level to be bridged. You are also required to sit the assessments for each level to be bridged. The tutorials are to prepare and guide you through the process of

studying at and submitting your work at university level 6 (CPPD bridging) and Level 7 (all other bridging).

- Current LCCH course materials relevant to the level of bridging will also be provided.
- Examinations will be conducted in an appropriate setting, invigilated by the tutor. Any coursework is to be handed in at the time of the exam.
- The candidate's work will be marked by the tutor in the first instance, second marked at LCCH before being submitted to TVU for moderation.

*To book, or if you wish to discuss the bridging process in greater detail please contact the LCCH head office on **020 7402 9037**.*
